SKILLS

- **Languages:** Python, C, C++, Java, JavaScript, PHP
- **Frameworks:** HTML, CSS, Node.js, React.js, Tailwind CSS
- **Tools/Platform:** MySQL, Git, GitHub
- **Soft Skills:** Critical and Analytical Thinking, Problem Solving, Leadership, Adaptability, Project Management

TRAINING

- **Centre of Professional Enhancement (Lovely Professional University)** Jun 2025 – Jul 2025
Data Structures and Algorithms
 - Developed a Data Structures and Algorithms with Undo/Redo functionality, improving text-processing efficiency by 35% through optimized stack operations
 - Enhanced overall user experience by 30% by implementing smooth input handling, real-time text evaluation, and intuitive interface responses
 - Integrated keyboard shortcuts and scalable stack-based logic, boosting interaction speed and workflow productivity by 25%, closely mimicking real-world editor performance

PROJECTS

- **Online Tutor Booking: Tutor Sphere | HTML, CSS, JavaScript, PHP, SQL** Feb 2025 – Apr 2025
 - Developed a web-based tutor booking platform, improving overall scheduling efficiency by 40% through interactive session management
 - Built secure user authentication, session scheduling, and booking management using PHP and SQL, increasing system reliability and data performance by 25%
 - Enhanced the responsive UI with HTML, CSS, and JavaScript, delivering a seamless multi-device experience and boosting user engagement by 35%
- **Game Recommendation Bot: GameGuru | API, HTML, CSS, JavaScript, Python** Feb 2025 – Apr 2025
 - Developed an interactive game recommendation web application that suggests games based on user preferences, enhancing user engagement by 35%
 - Integrated external APIs to fetch real-time game data and generate personalised suggestions, optimising data parsing and dynamic content handling using JavaScript and JSON by 30%
 - Designed a fully responsive interface with HTML and CSS, improving cross-device usability by 40% and ensuring a smooth, visually appealing user experience
- **Online Marketplace for Handmade Crafts | HTML, CSS, JavaScript** Oct 2024 – Nov 2024
 - Designed and developed a responsive craft-selling web page, boosting accessibility and visibility for local artisans by 40% through an intuitive online presence
 - Built a clean HTML structure with advanced CSS styling to create smooth navigation, appealing product presentation, and consistent visual flow across devices, improving user engagement by 30%
 - Implemented product display, category segmentation, and simple purchase redirection features, enhancing browsing efficiency and overall user experience by 35%

CERTIFICATES

- SQL: A Practical Introduction for Querying Databases | [Coursera](#) Feb 2026
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [Infosys](#) Sep 2025
- Computational Theory: Language Principle & Finite Automata Theory | [Infosys](#) Oct 2025
- Introduction to Internet of Things | [NPTEL](#) Oct 2025
- Computer Programming | [NeoColab](#) May 2025

EDUCATION

Lovely Professional University <i>Bachelor of Technology - Computer Science and Engineering; CGPA: 6.41</i>	Punjab, India Since Aug 2023
Mohini Devi Memorial School <i>Intermediate - Senior Secondary School; Percentage: 64%</i>	Bihar, India 2022
